

	Wednesday 1st October					
	Create 1	Create 2	Inspire	Think		
9:30	Registration					
9:45						
10:00					👋 Welcome to FOSS4G:UK 2025	
10:15					🔑 Keynote: Kathryn Berger	
10:30						
10:45	Break		👤 Automate your workflows with QGIS Model Designer	👤 EarthCODE 101 Hands-On Workshop		
11:00	Routing in JavaScript: Introducing Terra Route	When Roads and Power Fail: Assessing Business Interruption from Flooding with Open-Source Analytics				
11:15	Addressing range and charge anxiety for EV drivers with Mapbox	All Datasets are Meshes: Towards a new Ontology for 3D GIS				
11:30						
11:45	Estimating Shared Bike Trips Using TfL Data and Routing APIs	Rebooting Python Environments: leaner geospatial development				
12:00	DigiMapper: Revolutionizing Urban Leisure Planning with Geotagged Social Media Data	What to do when your favourite ETL tool gets too expensive...	🍽️ Lunch	🍽️ Lunch		
12:15						
12:30						
12:45						
13:00	🍽️ Lunch	🍽️ Lunch				
13:15						
13:30						
13:45						
14:00	Pretraining Geospatial Foundation Models with OpenStreetMap	Open Maps for Europe - Democratising data and Driving Sustainability	👤 Administering field surveys with QGIS and Mergin Maps	👤 EO Datahub: using data streams from space in your geospatial applications		
14:15						
14:30	Sharing Antarctic data using Open Source	MapAction: We need your support!				
14:45						
15:00	She Measures the Earth	Unlocking Historic Planning Data with Open Geospatial AI	Break			
15:15						
15:30		Danger UX! British World War Two Coordinates in JS, Python, and QGIS	👤 Building Data Products the FOSS4G Way			
15:45						
16:00	Break					
16:15						
16:30						
16:45						
17:00	🔑 Keynote: Mariam Crichton					
17:15						
17:30						

	Thursday 2nd October			
	Create 1	Create 2	Inspire	Think
9:30	 Keynote: Alasdair Rae			
9:45				
10:00	Break			
10:15	Fork in the Road: Developing a Free Gluten Free Map App	A Field Guide to Building Serverless Geospatial Apps on AWS	 MAPPING Workspaces with Codespaces [BYOB]	 Live Vector Tiles from PostGIS with pg_tileserv: A Hands-on Workshop
10:30				
10:45	Scaling Gender-Responsive Park Safety Insights with Open GIS	What is the hype around hyperspectral?		
11:00				
11:15	Integrating Esri's Location Services with Leaflet and Cesium: Planning a Highland day-hike	FAIR and Open Science for Earth Sciences with ESA EarthCODE		
11:30				
11:45	Break			
12:00	A GERS Tour of Leeds	Beautiful Hillshades in QGIS: Return of the Blend Modes	 Calculating Access to Services Using Open Source Routing Techniques	 Web Accessibility 101: Making Research and Geospatial Applications Inclusive
12:15				
12:30	Help make standards fun and useful!	Remote Sensing Sucks!		
12:45				
13:00	 Lunch	 Lunch	 Lunch	 Lunch
13:15				
13:30			OSGeo:UK hosting a future international FOSS4G	
13:45				
14:00	The Evolution of Open Source for Geospatial: A Commercial View	Better Open Data - Cloud-native geospatial data for Northern Ireland	PostGIS Views - making life easier?	 Building Sustainable Open-Source Dashboards: Archival Strategies for Long-Term Access
14:15				
14:30	Open Source GIS for Industry	Recent Improvements to the QGIS Browser	Automate PostGIS and QGIS using Event Triggers	
14:45				
15:00	This isn't a Sales Pitch unless you're buying!	Use of FOSS4G technologies in EU CAP processes, Case Finnish Food Authority	Growing Success: Open Source Initiatives at Dorset Council	
15:15				
15:30	Break			
15:45				
16:00	Closing Wrap Up			
16:15				
16:30
